

THE C-SUITE SUCCESS NETWORK

JMCC CAREER NETWORK FOR PROFESSIONAL WOMEN

THE COMPANY

Jackie Mitchell Career Consulting (JMCC) is a career development coaching and consulting company that works with ambitious professional and executives who want to advance and succeed in their careers, achieve their personal and professional goals so that they can make an impact with their work and live fulfilling lives.

THE NETWORK

The C-Suite is a network for professional women who are passionate about being successful in their lives and in their careers. C-Suite is a success network that helps our members navigate and perform better in their organizations by providing professional performance and success coaching, mentorship, professional community support, and connection with like minded women at all levels in their careers and lives.

The C-Suite's unique approach addresses retention issues and leadership gaps that companies face in filling demanding, senior roles by creating a safe and supportive space where members feel more confident, more motivated, more empowered, more inspired, and more clear on how to connect with their company's objectives and culture.

Jackie Mitchell, a Senior IT Professional and PMP certification holder, is the founder of JMCC and The C-Suite. She saw the need for a safe space for professional women to network with each other outside of the workplace. This is not the typical networking community. Our Success Network is a space that holds no judgement for those seeking to achieve and maintain success, strengthen their soft skills, connect with other professional women on a success journey of their own.

MEMBERSHIP BENEFITS
